Review: My son Naim has been taking online piano lessons with Donovan, and we are extremely happy with the experience. Donovan is patient, fun, and friendly, which makes each lesson enjoyable and engaging for Naim. He provides a clear summary after every class, allowing us to easily track Naim's progress. Donovan is also highly committed and accommodating—he has been flexible with scheduling changes, even on short notice, which we greatly appreciate. The option for extended lesson durations when needed has also given Naim more time to explore and grow musically. Since starting lessons, Naim has become more disciplined and confident. His interest in piano has deepened, and we've noticed real improvement in both his skills and his overall enjoyment of music. The interaction between Donovan and Naim is always warm, encouraging, and supportive. Thank you, Donovan, for your dedication and patience. Your guidance has truly made a meaningful difference in Naim's musical journey.
